Elisabeth Sørensen

Dear Ms Henningsen '00 JUL 11 11:02:33

I am writing you to express my concern and support regarding improved labeling to identify Genetically Modified Organisms (GMO). As a consumer it is my right to know whether a food item is a GMO product.

There has been little research to establish the implications long term of ingesting GMO food products and as such I believe the adoption of strict regulations for the health and safety testing of GMOS is mandatory. There also needs

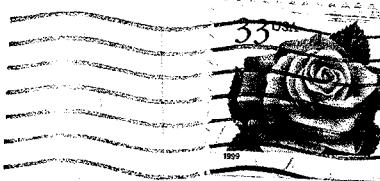

00P-1211

C 2791

to be requirements for  
comprehensive assessments  
of environmental risks  
associated with GMOS as  
well.

Thank you for considering  
my concerns and comments.  
I will also be contacting  
my congressman on this  
issue expressing the above  
opinions.

Sincerely,  

Commissioner Jane Ifenney  
Docket No 00P-12111(CP)
